

Project Report

1. INTRODUCTION

1.1 Overview

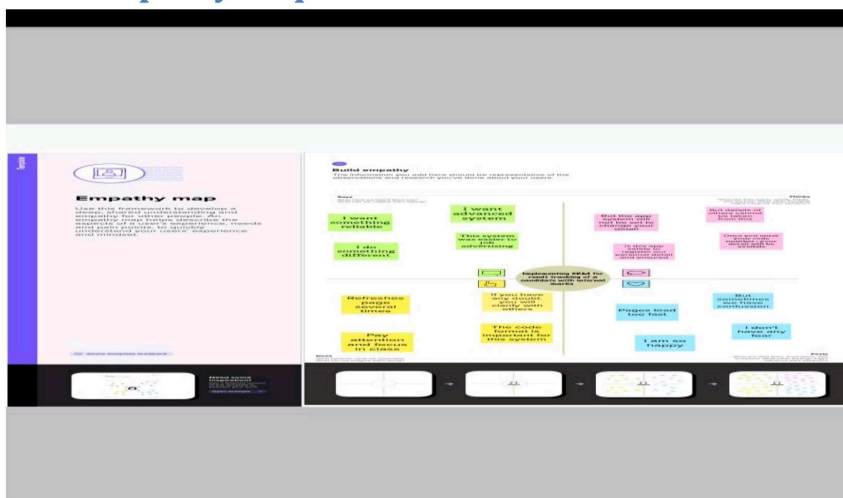

Administrator should be able to create all base data including semester, candidate, course and lecturer, lecturer should have the ability to create internal results, dean, who is one of the lecturer, should be the only one with ability to update internal results, reevaluation can be initialized by candidate for all internal results. Now only dean can update the marks after evaluation.

1.2 Purpose

- By internal marks it means that your marks obtained by your assignment or other co- curricular activities or your behavior most important.
- It is the marks that is given by your teacher to you.
- The marks you obtained in your exams or theory is external marks

2. PROBLEM DEFINITION & DESIGN THINKING

2.1 Empathy map

2.2 Ideation & Brainstorming map

1 Define your problem statement
What problem are you trying to solve? Frame your problem as a How Might We statement. This will be the focus of your brainstorm.
5 minutes

2 Brainstorm
Write down any ideas that come to mind that address your problem statement.
10 minutes

How to create custody internal scores?

Key rules of brainstorming
To run a smooth and productive session

- Stay in topic.
- Encourage wild ideas.
- Defer judgment.
- Listen to others.
- Go for volume.
- If possible, be visual.

Team leader
Our internal mark project has a highly reliable, accurate system.

Member 1
There is no need to worry about data to engage our project.

Member 2
All of our behavior, attendance and service needs will be entered.

Member 3
The motivating columns are included in our project.

Member 4
Our project has the facilities of downloading the documents.

Member 5
After school, your writing ideas in our app. Your app will be in a timeline.

Member 6
Our members have a high marks, but details of others cannot be taken from this.

Member 7
We will enjoy the working process.

Member 8
This is not a busy schedule.

Member 9
This app content is easy.

Member 10
This app is important to the students.

Member 11
In our project, user valuation is included.

Member 12
But the app system will not be set to change your status.

Member 13
Is this app added to register our personal data and analyzed.

Member 14
Reflected the page to make it fast.

Member 15
Strong opinion and crafted to make value judgement.

Member 16
documents will be displayed clearly.

Member 17
We will make them very satisfied.

What the students wants in internal marks?

1. Students want paper valuation

2. If the app safety to register

3. Our internal mark project has higher reliable biomatrix system.

4. The student want advanced system

5. Students want paper valuation

6. Advanced system

7. Play attention

8. Safety register

9. Values report

10. Biomatrix system

Importance
If each of these tests could get done without any difficulty or cost, which would have the most positive impact?

TIP
Add customizable tags to sticky notes to make it easier to find, browse, organize, and categorize important ideas as themes within your map.

TIP
Participants can use their cursor to point at where sticky notes should go on the grid. The facilitator can confirm the test by using the laser pointer holding the 24 long on the keyboard.

3 . RESULT

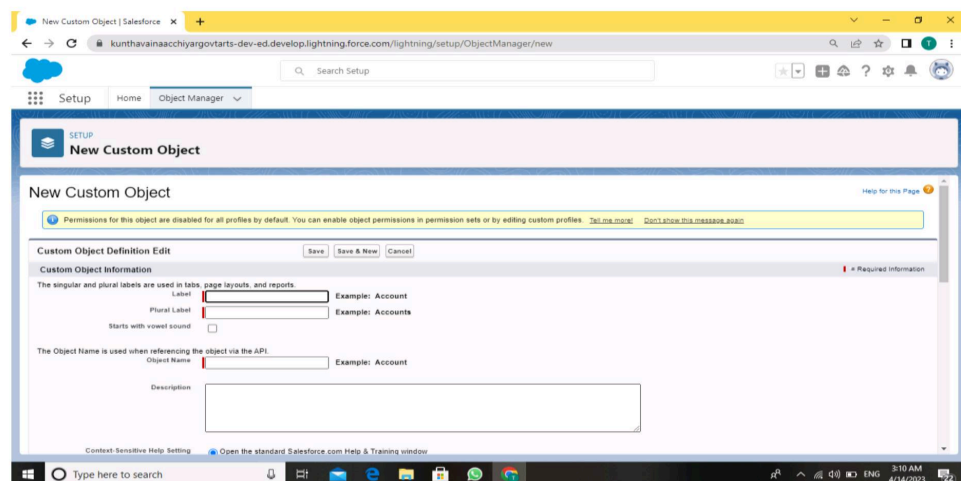

3.1 Data model

3 .2 Activity & Screenshot

<i>Object Name</i>	<i>Fields in the object</i>	
Semester	Field label	Data type
	Semester	Look up
Candidate	Field label	Data type
	Candidate	Look up
Course Details	Field label	Data type
	Course detail	Master detail
Lecture Details	Field label	Data type
	Lecture detail	Look up
Internal results	Field label	Data type
	Internal results	Look up

3.2 Activity & screen shot

- First we need to create a new custom object.

- An object relationship in salesforce is two- way association between two object .Relationship are created by creating custom relationship fields on an object.

The screenshot shows the Salesforce Object Manager interface for the 'Course Detail' object. The left sidebar contains a navigation menu with options: Details, Fields & Relationships (selected), Page Layouts, Lightning Record Pages, Buttons, Links, and Actions, Compact Layouts, Field Sets, Object Limits, Record Types, Related Lookup Filters, and Search Layouts. The main content area is titled 'Step 3. Enter the label and name for the lookup field' and includes the following fields and options:

- Field Label: [Text input field]
- Field Name: [Text input field]
- Description: [Text input field]
- Help Text: [Text input field]
- Child Relationship Name: [Text input field with value 'Course_Detail']
- Required: ☐ Always require a value in this field in order to save a record
- What to do if the lookup record is deleted?: ☒ Clear the value of this field. You can't choose this option if you make this field required.
- ☐ Don't allow deletion of the lookup record that's part of a lookup relationship.
- Auto add to custom report type: ☒ Add this field to existing custom report types that contain this entity

Navigation buttons at the bottom right include 'Previous', 'Next', and 'Cancel'.

- Apps in Salesforce are a group of tabs that help the application Function by working together as a unit.

The screenshot shows the Salesforce App Manager interface for creating a new Lightning App. The main heading is 'New Lightning App' and the sub-heading is 'App Details & Branding'. Below this, there is a description: 'Give your Lightning app a name and description. Upload an image and choose the highlight color for its navigation bar.' The form is divided into two main sections: 'App Details' and 'App Branding'.

App Details:

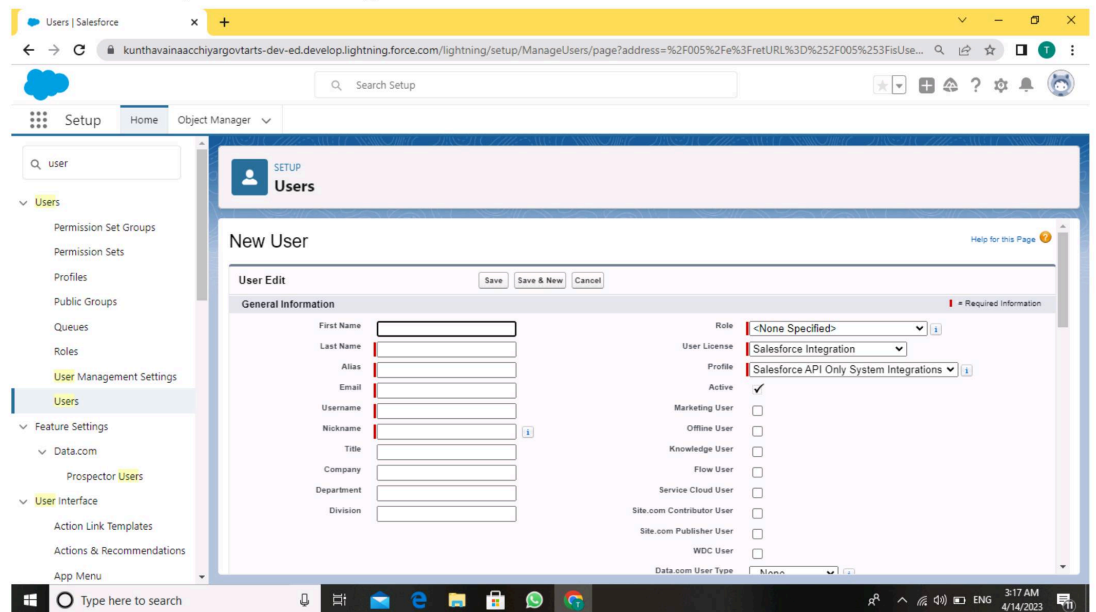

- * App Name: [Text input field with placeholder 'Name your app...']
- * Developer Name: [Text input field with placeholder 'Enter a developer name...']
- Description: [Text input field with placeholder 'Enter a description...']

App Branding:

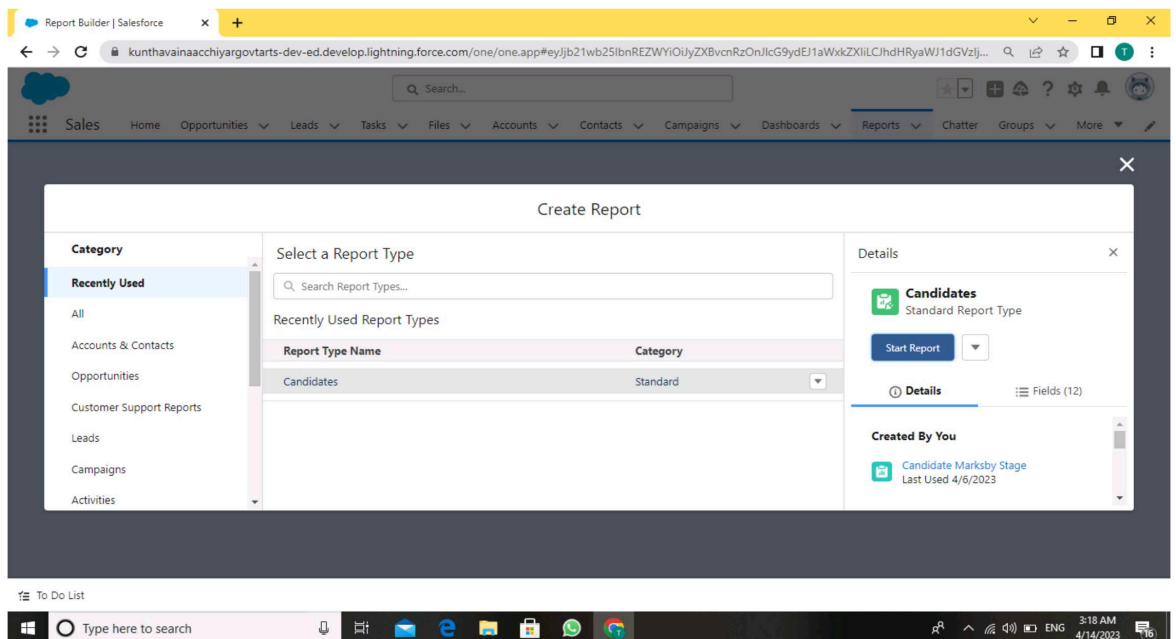

- Image: [Image upload button with placeholder 'Upload']
- Primary Color Hex Value: [Color picker with value '#0070D2']
- Org Theme Options: [Progress bar with 4 steps, the first step is active]

A 'Next' button is located at the bottom right of the form. The background shows a list of existing apps with columns for App Name, Developer Name, Description, Date, and Status.

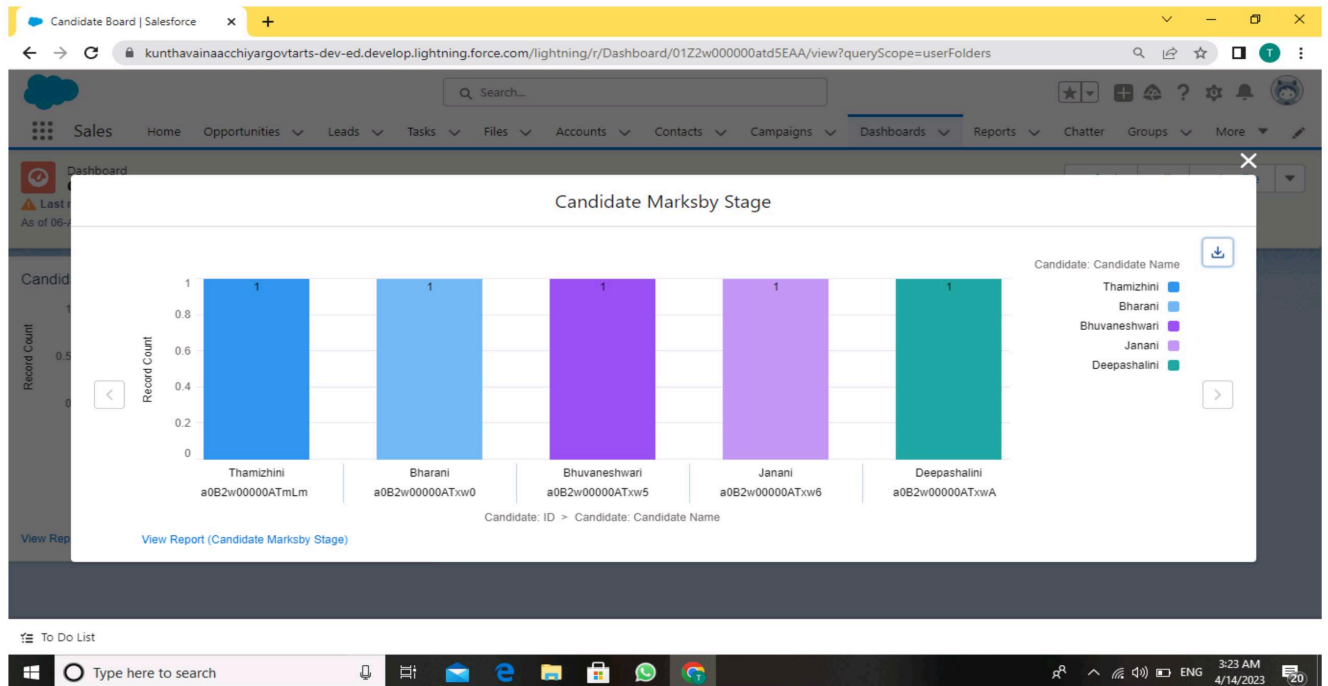

- A user is anyone who logs in to salesforce.

- A report is a list of records that meet the criteria you define.

- Dashboard let you curate data from reports using charts , tables, and metrics. If your colleagues need more information.

4. TRAILHEAD PROFILE PUBLIC URL

Team lead - <https://trailblazer.me/id/t2020batch>

Team member 1- <https://trailblazer.me/id/b2020batch1>

Team member 2- <https://trailblazer.me/id/b2020batch2>

Team member 3 – <https://trailblazer.me/id/j2020batch2>

Team member 4 – <https://trailblazer.me/id/d2020batch1>

5. ADVANTAGES

- Is this app safety to register our personal detail and ensured.
- But the app system will not be set to change your details.

- But detail of others cannot be taken from this.

DISADVANTAGES

- Security concerns associated with centralized data.
- But the app system will not be set to change your detail
- Page load too slow
- But sometime we have confusion

6. APPLICATION

- Implementing CRM in result tracking can be used in all educational institutions to track candidate results.
- It can be used both in schools and colleges.
- In schools, college even in universities, it would be very useful in monitoring students. performance and records.
- Educational institutions deals with lots of test paper and student evaluation.

7. CONCLUSION

- Educational institution deals with lots of test paper and student evaluation.
- It is a painstaking process for teachers to evaluate and keep track of student test and assessment.

- So we have come up with a solution known as implementing CRM in result tracking with internal marks.
- By this app we can show the students result in graphical representation which is easier to manage their results.

8. FUTURE SCOPE

- Deeply integrates with social media, websites, cloud telephony and other software to bring all queries to a unified dashboard.
- AI- Powered bots, automated feedback or information collection and canned responses save time for your staff.
